

APPENDIX A: Interest Exploration

Based on the information collected from the filled-in questionnaire and our discussion, we observed that you may be interested in the following:

1. Information Systems
2. Finance
3. Entrepreneurship

We will figure out more details on these items with you. Note that you should also do more exploration in other fields to ensure that you can make an informed decision on your desired major. Aside from our recommended activities in our initial assessment, we also recommend the following activities:

Soft Skills Improvement

Despite your accomplishments, there are always rooms for improvement, especially in teamwork and leadership.

We suggest that you follow the below steps:

1. Create a task management system
Use apps, such as Asana or Trello, so that you can rank your task priorities and manage them in a more organized way.
2. Learn design thinking framework with our mentor
Good leader has a structured way of thinking, starting with a vision and breaking it down into actionable plans.
3. Think about ways on how you can create a legacy in existing group project
This is to train you to continuously think about how to create bigger impacts as you take up any role of your choice in a team.
