Let's Get Started!

What is your top university/country destination? *

Nanyang Technological University (NTU)

What grade are you in? *

☐ Class of 2022

☒ Class of 2023

☐ Class of 2024

☐ Class of 2025

☐ Yang lain:

What is your nationality? *

Indonesian

What is your home country? *

Indonesia

What type of school do you attend? *

☐ Public school

☐ National private school

☒ International private school

☐ Home school

☐ Other

What is your ethnicity? (Admissions chances vary substantially based on your demographic information. This information helps us accurately assess your profile.) *

Chinese Indonesian

What is your gender? *

Male

Do you intend to apply for financial aid? *

- ☐ Yes, I need full financial aid
- ☐ Yes, I need some financial aid
- ☒ No, I don't plan to apply for financial aid

What is your intended major? You can write more than one. *

Computer Science

What curriculum does your school adopt and what courses do you take (or plan to take)? Please be as specific as possible (e.g. write Math AI HL rather than just Math) *

American Classic (National+)

How many AP classes will you have taken by the time you graduate? How many are offered in your school? *

Write '0' if your school does not offer AP

0

What is your SAT or ACT score? If you don't have an SAT or ACT, you can enter your PSAT score instead. If you haven't taken any of those tests, enter "N/A" *

N/A

What is your TOEFL and IELTS score? If you haven't taken any of those tests, please rate your English writing capability from 0 to 10. *

6

Describe your extracurricular profile. For each activity, use the following format: Activity Name, Leadership Positions, Awards/Accomplishments, Number of Years Participated *

Leader of CBCS math club (has been held for 3 months), member of CBCS digital technology club (has not started).

Have you earned any awards? For each award provide a brief description. *

consistent silver medalist in various competitions such as SEAMO, SASMO, ASMO, etc.. Won gold medals in both Kangaroo Math Competition in 2020 and PHIMO in 2021. Qualified for KSN-P 2021. Finalist of IRGL 2021 and semi-finalist of HI-MMC.

What relevant fields are you interested in or do you want to explore further & why? *

Be as specific as possible. E.g. If Physics, then maybe renewable energy, because with climate change there is a real and urgent need for it in the real world.

I am interested in exploring every aspect of computer science because I really love coding. However, I am most interested in game development as I really like to play games as well.

What hobbies, interests, ideas, or causes are you deeply obsessed with? *

Playing games, sleeping, coding, and math

How do you react when faced with adversity? Give one example. *

I usually remain calm and try to solve the problem by myself before asking others for help. It's because I like to try my methods of problem solving before getting insights from other people. For example, when faced with many homework and tasks, I usually try to arrange a schedule and accomplish my tasks one by one by myself.

What are your weaknesses and how have you been improving them? *

I have difficulty working in a group and prefer working solo. However, because I have many group projects at school, I try to observe how others work in a group and replicate it. I have also been competing in many team-based competitions to try to further improve my teamwork skills. I also recently tried leading a math club to improve my leadership skills, which is essential for working in a group.

Who has influenced you the most? Share one significant lesson you learned from them *

My mom taught me that preparation is the key to success. She influenced my life the most because she taught me many skills since I was young. She also encourages me to do my best in everything so that I can achieve success in the future.

When was the last time you strongly disagreed with someone? Why? *

I had a disagreement with my parents because they forbid me to play games when I needed a break. I feel that games help me reduce stress and have fun. However, my parents keep telling me to work hard and do my research to get into my dream university. Thus, I obeyed them to do my research although I felt tired.

What is the most unique experience you've had? *

I placed 2nd in West Java for Kangaroo Math Competition when I was in 2nd grade. I will never forget that experience because, realistically speaking, there is a very low chance that I will replicate such standings.

What are your burning questions regarding university application process? *

I want to know which universities will suit me best. I only want to go to NTU because it will ease me when finding a job in the future, as the prestige of being an NTU graduate is highly regarded by many.

Finish!

It's the end of the questions, thank you for filling out the form completely. You will be informed as soon as possible regarding the result of the profile review.
